

### **Information about insurance selection**

The higher the deductible you choose, the lower the premium you will pay for insurance. On the other hand, if there is an insured event you will incur a higher payment of due to the higher deductible. Include is the free 24-hour assistance. The insurance service and the car rental service cannot be purchased separately. Before arranging insurance, we recommend that you read the pre-contractual information.

#### Deductible amount **10%** (min. CZK 10,000)

We recommend arranging this option if you prefer a lower premium, but at the same time know that you are liable for a compensation of 10% from a total amount in case of an insured event. In practice, this can mean, for example, that if you rent a vehicle worth CZK 1,000,000, you will be charged CZK 100,000 in case of total damage to the vehicle. Therefore, if you are not prepared, or able, to pay this deductible amount, we recommend arranging an insurance option with a lower deductible or consider renting another vehicle (with a lower value).

#### Deductible amount **5%** (min. CZK 5,000)

We recommend arranging this option if you prefer a lower share in the payment of damage in case of an insured event, but this comes at a higher price point. In practice, this can mean, for example, that if you borrow a vehicle worth CZK 500,000, you will pay CZK 25,000 in case of total damage to the vehicle.

#### Additional insurance selection

We recommend arranging a third party (motor) liability insurance as it covers some other risks not covered by the accident insurance (above options). In combination with standard insurance, it will provide you with more comprehensive insurance protection. Liability insurance covers, for example, damage caused by improper operation, tire damage, seat upholstery damage, or repair costs resulting from incorrect fueling of a vehicle.
